## Project Details

---

## **Ebtyde – WordPress & Buddyboss Platform and Management**

- **Custom Plugin Development:** Developed a custom user connection system within the BuddyBoss platform, allowing tailored user interactions beyond default friendship models.
- **Chat Integration:** Integrated one to one private chat feature post-connection using BuddyBoss messaging system, with conditional visibility based on connection status.
- **Forums Integration:** Displayed custom forums based on selected tags, enabling users to access only relevant discussions and communities

## **englishpodcastscollected - Wordpress & learndash Management**

- **Custom Plugin Development:** Built a custom WordPress plugin for live search Functionality
- **Elementor Builder:** Created a single post template using Elementor Builder, ensuring responsive design and consistent styling across post types.
- **Fetch the dynamic data:** Created custom shortcodes to retrieve and display dynamic post data site-wide (e.g., latest posts, user-specific content, tag/category-based etc).

Worked on over **15 to 20 WordPress websites**
